

Activity 12 – Human Body Systems Research

From Kids Health kidshealth.org

Please go to the **Respiratory, Circulatory and Digestive Systems** sections and:

- a. Draw a CQC figure showing the system on a separate paper.
- b. Identify the name of **each subsystem** (structure) within the system (trachea, bronchia etc....)
- c. Tell what each subsystem does (its function)
- d. **Up to 3 properly completed, additional systems can be done as extra credit**

Use the pause and rewind buttons to help you get complete notes.

1. The Digestive System
